

1. Jenny has a job that pays her \$8 per hour plus tips (t). Jenny worked for 4 hours on Monday and made \$65 in all. Which equation could be used to find t , the amount Jenny made in tips?
- A. $65 = 4t + 8$
 - B. $65 = 8t \div 4$
 - C. $65 = 8t + 4$
 - D. $65 = 8(4) + t$
